TO THE MEMBERS OF THE U.S. HOUSE OF REPRESENTATIVES:

The 250 undersigned groups strongly support efforts by the House of Representatives to make federal agencies more accountable to the American public and improve the transparency of agency actions. The federal rulemaking process was founded on principles of open government and public participation.

We are pleased, therefore, that the House is voting on a comprehensive regulatory reform bill, H.R. 712, the “Sunshine for Regulatory Decrees and Settlements Act,” which would take important steps to stop the abusive practice known as “sue and settle” and give the public and affected parties a greater ability to know about potential rulemakings and to participate.

H.R. 712 embodies several major principles of accountability, transparency, and fairness, drawn directly from three regulatory reform bills:

- **Title I – the “Sunshine for Regulatory Decrees and Settlements Act.”** Behind closed doors, organizations and agencies enter into consent decrees or settlement agreements compelling the agencies to issue rules on an expedited timeframe. The states and the public are not given notice of the lawsuits, nor do they have a meaningful voice in the process, despite the adverse impact that rushed, sloppy regulations have on them. This title would improve the “sue and settle” process by requiring agencies to give early notice and take public comment on proposed settlement agreements obligating agencies to initiate a rulemaking or take other action on a specified timetable. These settlement agreements allow interest groups to commandeer an agency’s agenda and regulatory priorities. The bill would allow affected parties to get notice of draft settlements and provide some opportunity to participate.

- **Title II – the “All Economic Rules are Transparent (ALER) Act.”** This title would require agencies to disclose rulemakings the agency plans to propose or finalize to OMB’s Office of Information and Regulatory Affairs (OIRA). OIRA would disseminate information about these planned rules to the public, including their estimated costs and benefits.

- **Title III – the “Providing Accountability Through Transparency Act.”** This title would require federal agencies to notify the public of proposed rules each month by posting a brief, plain-English summary of each proposed regulation on regulations.gov.

Taken together, these reforms would help Congress to reassert control over federal regulatory agency actions that have become opaque, unaccountable, and often unfair. Congress must perform its critical role as overseer of the federal agencies.
The undersigned groups strongly support H.R. 712, the “Sunshine for Regulatory Decrees and Settlements Act,” and its comprehensive approach to regulatory reform. We urge you to pass this important bill.

Sincerely,
