2021 UPDATES & NEW OFFERINGS

The Global Cold Chain Alliance (GCCA) is excited to unveil our slate of sponsorship, exhibiting, and advertising opportunities for 2021. To maximize the safety of all participants and planning certainty, adjustments have been made to the GCCA 2021 event schedule. Additional amendments include elevating GCCA suppliers' access to exclusive year-round activities and introducing exciting new opportunities to connect with members in intimate settings.

Outlined below you will find an overview of updates and new offerings at GCCA Events:

- **The IARW-WFLO Convention** will move from April to October 8-10, 2021 in Austin, TX to ensure maximum member participation, valuable engagement, and wellbeing.
- GCCA will forgo a **2021 Cold Chain Conference & Expo** and instead focus on streamlining participation for industry suppliers across a portfolio of intimate events listed below and outlined in the Guide that you are preparing to review.
- The **IARW-WFLO-CEBA Strategic Board Meeting**, taking place in Scottsdale, AZ April 22-25, 2021, is now open to sponsoring member suppliers and contractors! Members now have the exclusive opportunity to sponsor and attend this meeting with the industry's top warehousing and logistics executives.
- **GCCA Share Groups** designed for warehouse members will expand to include Technology, HR & Talent, Finance, and Marketing. Each group provides an exclusive opportunity to network and engage with key functional leaders in the cold chain.
- **WFLO Institute, the cold chain industry's flagship leadership development program**, is also now open to sponsorship from member suppliers and contractors! Institute provides access to the industry's future leaders today. With East and West locations in Atlanta, GA and Tempe, AZ, a select cadre of warehouse supervisors, managers, and operations leaders congregate in May to participate in a three-year rigorous curriculum of professional and leadership development. In addition to aligning your brand with the future talent of the cold chain, the event provides networking opportunities with executive level faculty at the program.
- Building on success in 2020, GCCA will continue hosting **Regional Cold Chain Connection Meetings** in select locations across North America. These intimate 1-day programs provide industry updates and a roundtable discussion atmosphere, followed by a networking meal and optional round of golf.
- Membership reported overwhelming satisfaction with 2020 **virtual learning opportunities** and GCCA will continue to provide those opportunities in 2021. More information will be released on how you can leverage GCCA's 2021 line up of virtual programming. Ideas and proposed topics are always welcome!

To maximize your company's visibility this upcoming year, book an appointment with James Rogers, Sr. Director of Business Development, today (jrogers@gcca.org/+1 703 373 4303) to discuss your engagement plan. GCCA looks forward to helping you achieve your cold chain marketing goals this year and beyond!

GCCA STANDS WITH YOU. THE TIME TO ACT IS NOW.

Never before has our industry faced such uncertainty and vulnerability from America's policy makers. **A new Administration and new Congress represent new challenges and opportunities that we will need to face as an industry, together.**

The incoming Administration and Democratic controlled Congress could implement burdensome regulations and increase oversight over our industry in a number of ways. This includes:

OSHA COVID-19 STANDARDS

- Enacting a national emergency temporary standard for industry
- Sets the stage for permanent regulation on infectious disease control in the workplace

CLIMATE CHANGE

- Pursuing aggressive policies to address climate change, through both executive action and legislation
- Rejoining the Paris Climate Agreement, eliminating greenhouse gas emissions, and implementing the Green New Deal

TAXES

- Rolling back the Trump tax cuts
- Increasing the corporate tax rate from 21% to 28%, phasing out deductions for pass-through entities
- Raising the top marginal income-tax rate from 37% to 39.6%
- Less money in the pockets of businesses means less jobs available for hardworking employees

LABOR

- Strengthening worker organizing, collective bargaining and unions through executive action and legislation such as the PRO Act
- Labor initiatives, like 'micro-unit' organizations and joint employer policies could quickly be reinstated

ADDITIONAL REGULATIONS

- Revisiting EPA's Risk Management Program (RMP) regulation and making additional requirements
- Changes to Process Safety Management

In addition to helping protect your own business, Policy Fund Supporters will receive recognition and visibility in front of their customer throughout the year on the GCCA Advocacy website and at GCCA events.
