

September 28, 2020

Dear Members of the U.S. House of Representatives:

The undersigned organizations represent small businesses in every sector of the economy, and we are writing to ask for swift action to support America's small businesses with additional relief. Our small business members are desperately struggling to survive the COVID-19 health pandemic and the subsequent economic fallout. Specifically, we are asking you to courageously put your constituents above Washington, D.C. politics and sign the discharge petition initiated by Congresswoman Jaime Herrera Beutler to compel the House to vote on H.R.8265, which would provide the access to additional capital that small businesses, their employees and stakeholders need. The bill would amend the Small Business Act and the CARES Act to establish a program for second draw loans and make other modifications to the Paycheck Protection Program.

While we may have preferred that Congress process bipartisan, bicameral relief legislation through regular order, this discharge petition constitutes Main Street's last hope this year for additional relief. Therefore, in these unprecedented circumstances, we urge you to support small businesses as soon as possible by signing the Herrera Beutler petition.

Thank you for your consideration and appreciation of our concerns during this critical time.

Sincerely,

AICC, The Independent Packaging Association
