WHY VAPOR ARMOUR?

1. Since its inception, Vapor Armour Inc. has become the industry leader in the engineering, manufacturing and installation of vapor barrier membrane. Vapor Armour, Inc. received its application patent (#7802403 B2) for Vapor Armour™ in September of 2010. Vapor Armour™, Vapor Lock™, Vapor Pipe Lock™ and Vapor Shield™ are manufactured in the United States and are designed specifically for each facility to eliminate vapor drive in all thermally controlled facilities.
2. We are building envelope experts dedicated to eliminating vapor drive in every thermal controlled facility
 - a. 20 year company experience in eradicating Vapor discontinuity
 - b. 15 year “No Ice. No Condensation. No Cost” Warranty – the only warranty of its kind for vapor barriers
 - c. 20-year Building Envelope Systems Warranty
3. Our Patented product,
 - a. Prevents insulation contamination
 - b. Reduces energy usage by 17-21% which produces an ROI usually in less than 5 years
 - c. Is compatible with any building type or roof system
4. When we eliminate vapor drive caused by vapor barrier discontinuity:
 - a. We eliminate ice and condensation caused by Vapor Drive,
 - b. We eliminate contamination from ice and condensation,
 - c. We eliminate unnecessary energy, maintenance and work force costs,
 - d. We allow compliance with the FSMA regulations that address food contamination and product recall,
 - e. We allow compliance with FDA and OSHA regulations,
