Never before has our industry faced such uncertainty and vulnerability from America’s policy makers, both in the White House and in both chambers of Congress. The Administration and Congress represent challenges and opportunities that we will need to face as an industry, together.

The Administration and Congress are considering a wide range of policies that could impact the cold chain in 2023. Key issues:

**FARM BILL**
- Congress is working to reauthorize the Farm Bill in 2023.
- GCCA will be actively engaging with Congress to advance cold chain industry initiatives and priorities.

**CLIMATE CHANGE**
- Pursuing aggressive policies to address climate change, through both executive action and legislation
- Implementation of the AIM Act to phase down HFCs

**TAXES**
- Increasing the corporate tax rate, phasing out deductions for pass-through entities
- Raising the top marginal income-tax rate

**LABOR**
- Strengthening worker organizing, collective bargaining and unions through executive action and legislation such as the PRO Act
- NLRB advancing labor initiatives, like ‘micro-unit’ organizations and joint employer policies

**BURDENSOME REGULATIONS**
- Revising EPA’s Risk Management Program (RMP) regulation and making additional requirements
- Changes to OSHA’s Process Safety Management regulation
- Implementation of FDA’s Food Traceability Rule

**THERE IS SOMETHING YOU CAN DO.**
