"Hi, my name is [YOUR NAME] and I'm calling from [YOUR COMPANY IN CITY]. I'm asking Governor Newsom to veto AB 817 and SB 716. These bills would raise cold storage costs across the food and pharmaceutical supply chain — affecting growers, processors, distributors, manufacturers, and retailers — while limiting facility improvements like energy efficiency upgrades and causing serious barriers to doing business in the state. Additionally, I'm concerned about [your specific concern].

The bills impact to the food supply chain means higher grocery prices for all Californians. Please pass along my opposition and ask the Governor to veto both bills. Thank you."
